DETAILED ACTION

Statement of Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

Regarding claims 11-13, the prior art of record does not teach a method of channel impulse response estimation in a CDMA system comprises the steps of "using said estimated data symbol to generate a soft output feedback decision and using the soft output feedback decision to make a further estimate of the channel impulse response."

Regarding claims 14-16, the prior art of record does not teach a method of channel impulse response estimation in a cellular communication system comprises the steps of "making a further estimate of the channel impulse response by performing a correlation process between a conjugate version of the spreading code and the incoming signal, and multiplying the results of that process by a feedback decision based on said estimated data symbol as a weighting value for the channel impulse response."

Regarding claim 17, the prior art of record does not teach a circuitry for estimating a channel impulse response in a cellular communication system comprises "circuitry for providing a further estimate of the channel impulse response by performing a correlation process between a conjugate version of the spreading code and the incoming signal, and multiplying the results of that process by a feedback decision

based on said estimated data symbol as a weighting value for the estimate of the channel impulse response.”

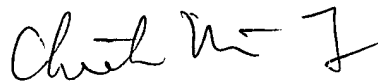

Regarding claim 18, the prior art of record does not teach a circuitry for estimating a channel impulse response in a CDMA communication system comprises “a soft output feedback decision generator for using said estimated data symbol to generate a soft output feedback decision; wherein the soft output feedback decision is used to make a further estimate of the channel impulse response.”

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
